

LINE PROPERTIES

Developed for winding and rewinding of drums from 800 mm up to 1600 mm.

● SPEED LINE

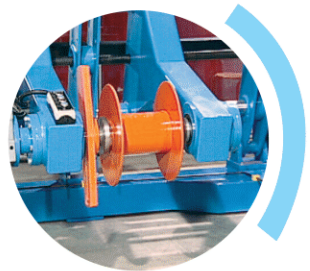

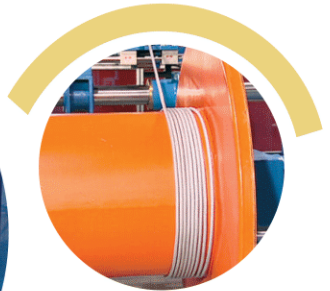

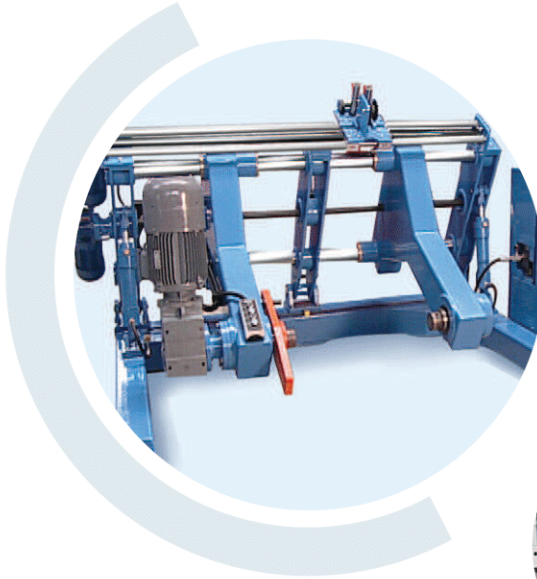

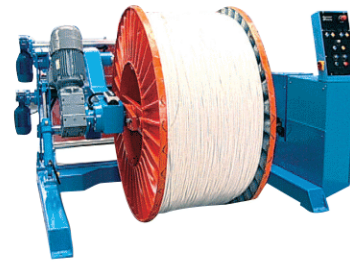

Speed and torque controlled winding function

● HIGH CAPACITY

- Synchronization with winder and traverser
- Hydraulic pump lifting system

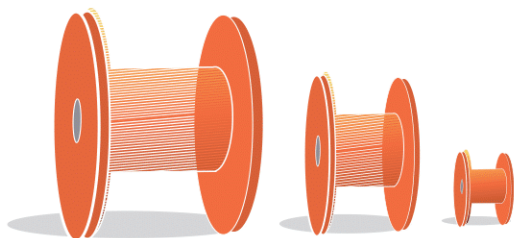

● WIDE RANGE

800–1600 mm drum size

CONFIGURATION

- A. Accumulator controlled driven payoff
- B. Accumulator controlled winder
- C. Torque controlled payoff
- D. Brake controlled payoff

AVAILABILITY FOR DIFFERENT SIZE DRUMS

Maximum drum diameter	: 1600 mm
Minimum drum diameter	: 800mm
Maximum drum width	: 1100 mm
Minimum drum width	: 550mm
